

# PRODUCT DATASHEET

## PHARMACY & OTC

Aerocan's cans provide:

### PROTECTION AND SAFETY

- Complete leak proof & airless
- Unbreakable
- Corrosion free
- UV & light barrier
- Multiple choice of internal lacquers with US FDA DMF available to guarantee product stability
- Pressure resistance
- Special printing and marks to guarantee product identification and authenticity (datamatrix, UV reactive inks...)

### QUALITY

- High level of aluminium purity (A5, A7... norm ISO 209-1)
- Recyclable material
- High definition printing on the whole body area
- Integrated process control (SPC, in line vision systems...)

One of Aerocan plants is particularly specialised in manufacturing products meeting specific requirements for these markets:

- Certification ISO 9001 - issue 2000
- DMF file available
- Fully validated pharma lines
- GMP site «Good Manufacturing Practices»
- Stock and customer sizes available
- Small runs (R&D, validation...) up to large commercial production

### BELLEGARDE (France)

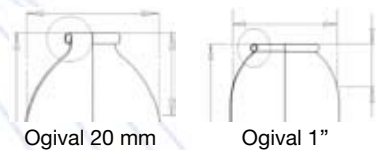

A specialised team with more than 20 years experience in managing pharmaceutical validation and qualification with major customers in Europe and USA, to support your products and projects.
